1 / 4

CAREL KRAAYENHOF

& Juan Pablo Dobal

To be provided by contractor 1 p.1:

Stage:

- Minimal stage size: 4x3 metres (approx. 12 x 10 ft). Empty stage.
- Stage floor height must be at least 40cm (approx. 1'4 feet).
- Nice wood or black marley.

Open-Air Stages:

- The stage must be safely put together, equally leveled and properly grounded.
- The stage must be equipped with a waterproof roof and 3 waterproof and windproof sides (open-air venues only).
- Nice wood or black marley.

On Stage:

- 1 well maintained grand piano, tuned to **A = 442 Hz Twelve Equal Temperament (12-TET)**. The Bandoneon is tuned 442Hz, therefore the piano must not be tuned higher than 442 (nor lower). We prefer Yamaha C5.
- The performance can only take place when the grand piano is correctly tuned to **A = 442 Hz 12-TET** and has no mechanical malfunctions. Please bare in mind that grand pianos, which are tuned to 440 Hz or lower, normally need more tuning sessions to stay tuned to **A = 442 Hz 12-TET**.
- 1 height-adjustable piano stool.
- 1 extra piano stool.

Houselights on stage and in the auditorium during setup and sound check.

During the entire performance we need clear light on stage in order to read our music.

PA:

Carel Kraayenhof always perform electrically amplified.

We request a full spectrum sound system - preferably - the following brands:

- Adamson
- Alcons
- D&B
- L-Acoustics
- Meyersound
- Synco

The power required depends on the venues' size and capacity.

Please provide a P.A.-system, which covers all seats equally in SPL and spectrum (20Hz - 20KHz.)

The equipment must be connected without interference and well maintained. Details on the following page.

CAREL KRAAYENHOF & Juan Pablo Dobal

To be provided by contractor 1 p.2:

Front of House:

FoH must be positioned in the auditorium's centre, not under a balcony, never in a booth.

Mixer (digital only):

- 4 subgroups,
- 8 VCA's,
- 4- Bands parametric EQ per input,
- 4 Available aux sends to control wedges (monitors from FoH) and effects:
 - 2x pre fader/ post EQ/ post mute (for wedge)
 - 2x post fader/ post mute (for effects)

We prefer:

- SSL 300/500 Live
- DigiCo SD series
- Soundcraft Vi series
- Avid/Digidesign
- Midas Pro series
- Yamaha CL or QL series
- Allen & Heath dLive series

FoH FX, drive & dynamics:

- Delays & EQ's for all drive outputs.
- At least 1x reverb:

We prefer:

- TC M5000
- Lexicon 480
- 1x compressor / limiter.

Monitors:

2x 10" or 12" wedge.

We prefer:

- Clair12AM,
- d&b Minimax,
- Synco CW101.

Carel Kraayenhof's favourite wedges are SoundProjects X-Act.

Please do not provide wedges bigger than 12".

Graphic 31-bands, 1/3 octave EQ's for all monitor sends.

Mic's:

Please refer to the input list and contact us at the time for updated information. **Please provide at least 1 spare mic of each kind.**

Mic stands:

Please refer to the input list and contact us at the time for updated information. Please provide the common –black- tripod telescopic stands with short legs (including the 3 rubber ends) and telescopic booms (K&M Series) unless stated otherwise. Type: **Konig & Meyer 259.**

CAREL KRAAYENHOF

& Juan Pablo Dobal

To be provided by contractor 1 p.3:

Setup & Sound check:

Stage & FoH setup (mic's setup, piano positioning, FoH preparation) usually take max. 60 minutes provided that the stage is empty and the electrical equipment functions without technical trouble.

The sound check usually takes 30 minutes.

During the sound check we need houselights and silence on stage and in the auditorium and we request at least 1 experienced audio-engineer for assistance.

The venue doors must stay closed for the audience during the sound check.

The entire audio set must be operational (in accordance with this technical briefing) when Carel Kraayenhof's sound-engineer arrives at the venue.

Lighting:

Please provide a complete full-functional-lighting system in order to illuminate the entire stage.

Please provide a talented operator whom is well experienced with the equipment and illuminates the program self-supporting. Please use natural and bright gels.

During set-up and sound check we need house lights on stage and in the auditorium.

Please note that the Artists need bright light during the performance in order to read their music.
